

AGRICULTURE DIVISION 3 PHASE STARTER (RELAY) DOL

DOELIN[®]
Exceeding Expectations

FEATURES

- Microcontroller based state of the art fully featured design.
- Sturdy powder-coated metal cabinet
- Digital display with user friendly keys
- True RMS voltage and current measurement
- LED indication of each fault
- Auto pump protection setting
- RTC based week timer control panel available (Optional)
- Operating voltage range 250Vac-480Vac at 50Hz
- Current range 0.5A-21A

PREVENTION AGAINST

- | | |
|---|---|
|  Dry Run |  Overload |
|  High Voltage |  Low Voltage |
|  Extreme high current |  Phase Failure from input side (input SPP) |
|  Phase Failure from output side (output SPP) |  Voltage unbalance up to 80V |
|  Current unbalance |  Phase Reversal |

ADJUSTABLE

Overload current & trip time

Dry Run current & trip time

High voltage & low voltage

Dry Run Auto Start Timer

Pump ON timer

Current unbalance

Cyclic Timer Mode (Optional)

ON time

OFF time
